# 3RD Grade News

## Math

This week we will review addition and subtraction facts. We will review fact families and addition and subtraction terminology. We will also discuss addition and subtraction using variables.

## Science

Our first science topic will be matter. The students will learn about the scientific method. We will discuss what matter is and the different forms of matter.

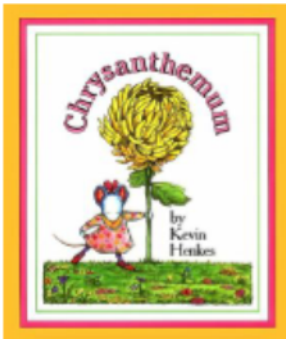

## Social Studies

Our first social studies topic will be geography. The students will learn about the immediate and intermediate directions.

## Reader's Workshop

The students will learn about the classroom library and learn how to choose "just right" books. The students will listen to the book Chrysanthemum by Kevin Henkes. We will discuss the setting, characters and events.

## Writer's Workshop

The students will write their own name acrostic poem. We will focus on writing detailed paragraphs. The students will begin to write their own "All About Me" book this week as well.
