## Math

This week we will review addition and subtraction facts. Please encourage your child to practice his/her addition and subtraction facts to 18 every night. We will focus on adding and subtracting two and three digit numbers without regrouping.

## Science

Our first science topic will be matter. The students will continue to learn about the scientific method. We will do a gummy bear experiment in class. We will also continue to discuss what matter is and the different forms of matter.

## Social Studies

Our first social studies topic will be geography. The students will continue to learn about the immediate and intermediate directions.

## Reader's Workshop

The students will learn more about the classroom library and how to choose "just right" books. The students will learn that reading is thinking. We will discuss what readers should think about as they are reading a text.

## Writer's Workshop

The students will practice writing detailed paragraphs. We will focus on when to indent, topic sentences, details and closing sentences. We will review capitalization rules this week as well.
